4 It would appear from the correspondence in this office that the question of an improved water supply to the Mysore city emanated from the late Dewan Rao V.P Madhava Rao who was anxious to give a continuous supply to the city when the water in the Cauvery River was too low to admit of a supply by means of turbines. It is probable that the late Dewan must have had some complaints of the different supply to the town, as otherwise the Scheme would have not been sanctioned —

12 It seems doubtful if the amount spent on account of the temporary improvement of the Mysore City water supply, can be brought under Sec 167 or Sec 176 of the Rule Regulations.
